

RelyOn Expands its Presence in Germany with the Acquisition of O.S.T. Cuxhaven

January 31, 2025

RelyOn is pleased to announce the acquisition of O.S.T. Cuxhaven, a well-established provider of renewables and offshore training in Germany. This acquisition strengthens RelyOn's presence in Germany and underscores its commitment to supporting the energy transition through growth of renewable energy by expanding its capacity in Germany.

Lars Brenne Managing Director, Central Europe, at RelyOn comments: "With the integration of O.S.T. Cuxhaven, RelyOn is better positioned than ever to provide industry-leading training solutions for the growing offshore wind workforce. We look forward to supporting the growing requirements of the industry around the port of Cuxhaven, while simultaneously offering even more flexibility to our existing customers in Bremerhaven."

O.S.T is strategically located in Cuxhaven, a key hub for Germany's wind energy industry, just 30 kilometers from RelyOn Germany's current facility in Bremerhaven. This prime location in the middle of Cuxhaven's port—Germany's leading wind installation hub—positions RelyOn to better cater to the rapid growth of renewable energy in the region.

O.S.T. Cuxhaven will be integrated into RelyOn's business in Germany.

About RelyOn

RelyOn delivers safety, compliance and competence services and solutions around the world. Across their 40+ facilities, RelyOn helps clients protect their people, assets and the environment. RelyOn has a deep history going back over 50 years and leads, through the intelligent application of latest technology, the energy sector and other safety critical industries. RelyOn is leading the safety and technical training field and has a broad range of innovative digital services, including digital learning, simulation technology and a market-leading suite of SaaS applications. The company's market-leading digital services offer clients a modular approach to managing safety across their business processes while minimising risk and revolutionizing how we track workforce safety, compliance and competence.
